

It's not surprising that Sinclair Broadcasting's management is attempting to use our public airways to further their own agenda by airing this 90-minute anti-Kerry campaign ad.

What WILL surprise me is if the FCC allows this to happen. Are there any vestiges of democracy left in this government? Or are all of our government agencies for sale to the highest bidder?

Don't tell me - SHOW ME. Stop this outrageous abuse of my public airways. And stop these idealogues from buying more and more stations, giving themselves more and more power to undercut our invaluable freedom of speech.

Thank you for listening.
